

# TRAINING AND WORKSHOP

ASCSURANCE - CONFIDENCE - PROGRESSIVE

## TRAINING SERVICE:

### ISO

- ISO 9001: Quality Management System
- ISO 14001: Environmental Management System
- ISO 45001: Occupational health and safety management system
- ISO 37001: Anti-Bribery Management System

### PRODUCT

- Product knowledge (Plumbing & Material Building)
- Product Testing (Plumbing & Material Building)

### LABORATORY AND FACTORY

- Laboratory Management System: SNI ISO/IEC 17025
- Energy Audit for Energy Consumption Mapping
- Factory Safety Assessment
- Fire and Explosion Risk Assessment

## OTHER:

- CUSTOM TRAINING (AS REQUESTED)

# TRAINING AND CERTIFICATION ISO

## THE FOLLOWING ARE THE OBJECTIVES AND BENEFITS OF ISO TRAINING

### ISO TRAINING OBJECTIVES :

- Understand ISO Standards & Requirements
- Improving Competence & Capability
- Supporting System Implementation & Maintenance
- Improving Organizational Compliance & Risk
- Preparing for Certification/Audit

### BENEFITS OF ISO FOR ORGANIZATIONS :

- Enhancing Credibility & Customer Trust
- Process Improvement & Operational Performance
- Risk Management & Regulatory Compliance
- Improving Productivity & Cost Efficiency
- Competitive Advantages & Broader Market Access
- Promoting a Culture of Continuous Improvement

### BENEFITS OF ISO FOR INDIVIDUALS :

- Improving Competence & Professionalism
- Enhancing Career Opportunities & Competitiveness
- Possess an understanding of Quality Management, Environment, & Occupational Health and Safety
- Improved Analytical, Auditing, and Problem-Solving Skills
- Global Recognition of Competence

# PRODUCT KNOWLEDGE AND TESTING

## THE FOLLOWING ARE THE OBJECTIVES AND BENEFITS OF PRODUCT KNOWLEDGE AND TESTING TRAINING

### OBJECTIVES OF PRODUCT KNOWLEDGE & TESTING TRAINING:

- Understanding Product Characteristics & Specifications
- Improving Participants' Technical Competence
- Understanding Product Testing Procedures Correctly
- Supporting Compliance with Standards & Regulations
- Improving Technical Communication Skills
- Promoting Quality Improvement & Quality Control

### BENEFITS OF PRODUCT KNOWLEDGE & TESTING TRAINING :

- Increased in-depth understanding of products
- Improving testing quality and standard compliance
- Increasing customer trust and company credibility
- Reducing product failure and complaint risks
- Improving efficiency, work effectiveness, and decision making
- Promoting competency, professionalism, and career advancement
- Supporting the company's competitive advantage

A collage of industrial and laboratory equipment, including a control panel with buttons and a digital display, a large metal structure with horizontal slats, and a mechanical testing device with a yellow warning symbol.

# LABORATORY AND FACTORY

## THE FOLLOWING ARE THE OBJECTIVES AND BENEFITS OF LABORATORY AND FACTORY TRAINING

### OBJECTIVES OF LABORATORY AND FACTORY TRAINING:

- Laboratory (Testing Equipment & Calibration): Enhance understanding of equipment operation, measurement accuracy, and implementation of quality standards.
- Energy Audit: Map energy consumption, identify efficiency opportunities, and support sustainable energy management.
- Plant Safety Assessment: Identify hazards, evaluate operational risks, and strengthen safety systems.
- Fire & Explosion Risk Assessment: Assess potential risks, improve preparedness, and enhance prevention and protection systems.

### BENEFITS OF LABORATORY AND FACTORY TRAINING:

- Improves technical competence and professional skills of personnel.
- Ensures accurate test results, reliable measurements, and compliance with standards.
- Enhances operational efficiency and supports potential energy savings.
- Reduces risks of workplace accidents, fires, explosions, and operational disruptions.
- Strengthens credibility, reputation, and competitiveness of the organization.
