<p>1. RUANG LINGKUP</p> <ol style="list-style-type: none"> Skema sertifikasi ini berlaku untuk Spesifikasi Beton Aerasi Autoklaf. Permohonan diajukan oleh manufaktur atau perusahaan atau importir kepada PT IAPMO Group Indonesia (IAPMO) untuk mendapatkan Sertifikat Produk Penggunaan Tanda (SPPT) SNI 2156:2021 Pengoperasian skema sertifikasi produk mengacu pada ISO/IEC 17067:2013 dan diterapkan dalam skema sertifikasi tipe 3 dan 5 Ketentuan penerapan skema sertifikasi tipe 3 berlaku apabila : <ul style="list-style-type: none"> Perusahaan kecil (UMKM) dibuktikan dengan legalitas yang valid dari KEMENKUMHAM Ketentuan penerapan skema sertifikasi tipe 5 berlaku apabila : <ul style="list-style-type: none"> Perusahaan skala menengah atau besar dibuktikan dengan legalitas yang valid dari KEMENKUMHAM <p>2. PERSYARATAN PENILAIAN KESESUAIAN</p> <ol style="list-style-type: none"> SNI 2156:2021 tentang Spesifikasi Beton Aerasi Autoklaf Peraturan Perundang-Undangan yang memuat ketentuan tentang sertifikasi SNI untuk produk. <p>3. PROSES SERTIFIKASI</p> <ol style="list-style-type: none"> pengajuan permohonan sertifikasi; tinjauan permohonan sertifikasi; penandatanganan perjanjian sertifikasi; audit system manajemen mutu (tipe 5) audit proses produksi di manufaktur; pengambilan contoh uji; pengujian contoh uji di laboratorium uji; tinjauan terhadap hasil uji dan audit; penetapan keputusan sertifikasi; penerbitan sertifikat kesesuaian; penggunaan tanda SPPT SNI (lisensi); survailen dan re-sertifikasi; perubahan yang mempengaruhi sertifikasi; penghentian, pengurangan, pembekuan dan pencabutan sertifikasi. <p>4. PROSEDUR SERTIFIKASI</p> <p>4.1 Pengajuan Permohonan Sertifikasi</p> <p>Pemohon atau calon klien melakukan langkah-langkah berikut:</p> <p>Langkah 1 Baca formulir permohonan (FRM-LSPRO-01) dengan tuntas. Lengkapi formulir permohonan secara keseluruhan, tanda tangan, dan kembalikan</p>	<p>1. SCOPE</p> <ol style="list-style-type: none"> This certification scheme applies Autoclaved Aerated Concrete product specification. Application submitted by factories or companies or importers to PT IAPMO Group Indonesia (IAPMO) to obtain Product Certificate with Marking (SPPT) SNI 2156:2021. Operation of a product certification scheme refers to ISO/IEC 17067:2013 and implemented in a particular type 3 & 5 product certification scheme. The terms of application of type 3 certification scheme will be applied if : <ul style="list-style-type: none"> Small companies (UMKM) are proven by the valid legality from the MINISTRY OF LAW AND HUMAN RIGHT. (does not apply to overseas companies) The terms of application of type 5 certification scheme will be applied if : <ul style="list-style-type: none"> Medium or large-scale companies are evidenced by the valid legality of the Ministry of Law and Culture <p>2. ASSESMENT REQUIREMENTS</p> <ol style="list-style-type: none"> SNI 2156:2021 on Autoclaved Aerated Concrete product specification . Laws and Regulations containing provisions on SNI certification for Cookware and flatware products. <p>3. CERTIFICATION PROCESS</p> <ol style="list-style-type: none"> application for certification; application review signing of the certification agreement; Quality management system audit (type5) production process audit at factory; sampling; testing of product samples in the test laboratory; review of test and audit results; certification decision; issuance of certificate of conformity; SPPT SNI marking (license); surveillance and renewal; changes affecting certification termination, reduction, suspension or withdrawal of certification. <p>4. CERTIFICATION PROCEDURES</p> <p>4.1 Application for Certification</p> <p>Applicant or client candidate perform the following steps:</p> <p>Step 1 Read the application (FRM-LSPRO-01) completely. Fill in all spaces and sign and return the original or send copy via email to</p>

<p>a) Daftar produk termasuk gambar teknik (bila ada) terperinci untuk semua tipe.</p> <p>b) Ilustrasi atau rencana pembubuhan tanda sertifikasi dan SPPT SNI pada produk atau kemasan.</p> <p>Langkah 6 Jika ada, berikan satu (1) salinan laporan pengujian dari laboratorium uji terakreditasi yang dan sesuai dengan persyaratan standar yang diacu SNI 2156:2021</p> <p>Langkah 7 Berikan surat pernyataan bermaterai tidak akan mengedarkan produk sampai dengan SPPT SNI diterbitkan dan bertanggung jawab dalam peredarannya.</p> <p>Langkah 8 Kontak staff IAPMO jika ada pertanyaan berkaitan dengan sertifikasi produk. Silahkan serahkan formulir permohonan yang telah dilengkapi, beserta dengan informasi dan bahan-bahan yang disebutkan di langkah 2-7.</p> <p>4.2 Tinjauan Permohonan Sertifikasi</p> <p>a) Reviewer Engineer IAPMO melakukan tinjauan terhadap kelengkapan permohonan sertifikasi untuk memastikan bahwa bukti administratif yang diperlukan untuk penilaian kesesuaian terhadap persyaratan sertifikasi produk SPPT SNI telah lengkap (FRM-LSPRO-01b).</p> <p>b) Jika dalam proses tinjauan tersebut terdapat perbedaan pengertian diantara kedua belah pihak, maka perbedaan tersebut harus segera dikomunikasikan dan diselesaikan dengan klien.</p> <p>c) Setelah lengkap, IAPMO menyampaikan penawaran biaya sertifikasi kepada klien. Bila klien setuju, maka dilanjutkan penandatanganan Perjanjian Sertifikasi (FRM-IAPMO-01) dan pembayaran berdasarkan kesepakatan.</p> <p>d) IAPMO dapat memutuskan untuk menolak permohonan jika tidak menemukan kesepakatan kedua belah pihak, dan atau pembayaran yang tidak dipenuhi.</p> <p>4.3 Penandatanganan Perjanjian Sertifikasi</p> <p>Perjanjian Pendaftaran sertifikasi (FRM-IAPMO-01) harus dibaca dengan tuntas. Tandatangani halaman terakhir di perjanjian, bubuhkan stempel perusahaan diatas tandatangan dan kembalikan kepada IAPMO.</p> <p>4.4 Audit Sistem Manajemen dan / atau Proses Produksi di Manufaktur</p> <p>Audit Proses produksi untuk skema sertifikasi tipe 3</p>	<p>a) List of products including engineering drawings detail (if any) for all type of the product.</p> <p>b) Illustration or plan to affix certification mark and SPPT SNI in the product or packaging.</p> <p>Step 6 If any, send one (1) copy of a test report(s) from accredited testing laboratory referred to SNI 2156:2021</p> <p>Step 7 Send legal statement letter shall not circulate the product until SPPT SNI is issued and responsible to its circulation.</p> <p>Step 8 Contact IAPMO Staff if you have any question regarding certification process. Please submit the completed application forms, along with the information and materials set forth in steps 2-7.</p> <p>4.2. Application Review</p> <p>a) IAPMO Reviewer Engineer reviews the completeness of the application for certification to ensure that the necessary administrative evidence for conformity assessment of SPPT SNI product certification requirements is complete (FRM-LSPRO-01b).</p> <p>b) If in the review process there is a difference of understanding between the two parties, then the difference should be immediately communicated and resolved with the client.</p> <p>c) After all complete, IAPMO offer quotations to client. When the client agrees, continue to signing of the Certification Agreement (FRM-IAPMO-01) and its payment based on dealing.</p> <p>d) IAPMO may decide to reject the application if it does not find the agreement of both parties, and or the payment is not fulfilled.</p> <p>4.3 Signing of the Certification Agreement</p> <p>The Certification Agreement (FRM-IAPMO-01) must be completely read. Sign on the signature page of the agreement, also place your company stamp on top of signature and return to IAPMO.</p> <p>4.4 Quality Management Sistem and / or Production Process Audit at Factory</p> <p>Audit Proses produksi untuk skema sertifikasi tipe 3</p>

- Penggunaan Tanda SNI (SPPT SNI) setelah permohonan dinyatakan valid dengan masa berlaku sama seperti sertifikat kesesuaian.
8. LSPRO IAPMO akan mengisi informasi produk yang telah diberikan SPPT SNI melalui website dan aplikasi online milik BSN <http://bangbeni.bsn.go.id/>.
 9. Penandaan pada produk dan kemasan dilakukan sebagai berikut :
 - a) Penandaan pada produk atau kemasan dilakukan sesuai dengan standar produk yang berlaku;
 - b) Tanda SNI dan logo badan sertifikasi dilakukan pada posisi yang mudah dibaca dan tidak mudah hilang;
 - c) Pembubuhan tanda SNI secara tertulis dilakukan sesuai ketentuan Perka BSN No 2 tahun 2017 tentang tata cara penggunaan tanda SNI;
 - d) Tanda SNI dapat ditambah dengan atribut tambahan seperti nomor standar, nomor badan sertifikasi dan nomor registrasi lainnya dengan ukuran tidak lebih besar dari sepertiga luas tanda SNI.
 - e) Penandaan SPPT SNI dilakukan dengan membubuhkan "Logo SNI", keterangan Proses, Nomor SNI dan Kode Lembaga Sertifikasi ditunjukkan pada Gambar 1.

Gambar 1.

Gambar 1. Tanda logo sertifikasi dan SNI

Keterangan:
 Besarnya ukuran SNI dinyatakan dengan ketentuan sebagai berikut:
 $y = 11x$

application is declared valid with the same validity period as the certificate of conformity.

8. LSPRO IAPMO will fill in the product information that has been given SPPT SNI through the website and online application owned by BSN <http://bangbeni.bsn.go.id/>.
9. Marking on products and packaging is done as follows:
 - a) Marking on the product or packaging is carried out in accordance with applicable product standards;
 - b) SNI marks and logos of certification bodies are carried out in an easy-to-read position and are not easily lost;
 - c) Pembubuhan SNI mark in writing is carried out in accordance with the provisions of Perka BSN No. 2 of 2017 on the procedure of using sni marks;
 - d) Sni mark can be added with additional attributes such as standard number, certification body number and other registration number with a size no larger than one-third the area of SNI sign.
 - e) The marking of SPPT SNI is done by affixing the "SNI Logo", process description, SNI Number and Certification Body Code shown in Figure 1.

Image 1.

Figure 1. Certification logo and SNI Marking

Information:
 The size of SNI is stated as follows:

$$y = 11x$$

4.11 Survailen dan Resertifikasi

- 1) Survailen dilakukan untuk memastikan konsistensi terhadap persyaratan sertifikasi yang mencakup kegiatan audit di manufaktur, pengambilan contoh uji di jalur produksi atau gudang manufaktur dan pengujian contoh uji di laboratorium uji.
- 2) Frekuensi survailen ditetapkan sebagai berikut:
 - a) Kunjungan survailen ke-1 dilakukan selambat-lambatnya pada bulan ke-12 setelah tanggal penetapan sertifikasi.
 - b) Kunjungan survailen ke-2 dilakukan selambat-lambatnya pada bulan ke-24 setelah tanggal penetapan sertifikasi.
 - c) Kunjungan survailen ke-3 dilakukan selambat-lambatnya pada bulan ke-36 setelah tanggal penetapan sertifikasi.
 - d) Kunjungan re-sertifikasi dilakukan selambat-lambatnya pada bulan ke-44 setelah tanggal penetapan sertifikasi.
- 3) Frekuensi survailen berikutnya dapat berubah berdasarkan baik tidaknya hasil survailen sebelumnya dalam suatu siklus sertifikasi. Frekuensi dilakukan lebih cepat dan lebih banyak dari penetapan diatas.
- 4) Durasi audit 4 Mandays
- 5) Kegiatan audit di manufaktur pada tahap survailen dilakukan sesuai bagian 4.4 dengan tidak mengulang semua elemen dari evaluasi awal dan hanya dilakukan pada elemen kritis:
 - a) pengendalian bahan baku;
 - b) kepuasan pelanggan dan tindak lanjut keluhan pelanggan;
 - c) pengendalian proses produksi, termasuk penanganan apabila ada ketidaksesuaian;
 - d) pelaksanaan QC;

4.11 Surveillance and Renewal

- 1) Surveillance is undertaken to ensure consistency with certification requirements that include audit activities at the factory, sampling at production line and factory warehouse and testing of test samples in the laboratory.
- 2) The frequency of surveillance is determined as follows:
 - a) The 1st surveillance visit shall be done no later than 12th month after the date of certification.
 - b) The second surveillant visit shall be done no later than 24th month after the date of certification.
 - c) The 3rd visit of Surveillance shall be done no later than 36th month after the date of certification.
 - d) Renewal shall be made no later than 44th month after the date of certification.
- 3) The frequency of surveillance may change based on good or bad from the previous surveillance results in one certification cycle. Frequency can be done faster and more than the specified above.
- 4) Audit duration 4 Mandays
- 5) The audit activities during the surveillance are carried out in accordance with item 4.4 by not repeating all elements in the initial evaluation and only to critical element:
 - a) control of raw materials;
 - b) Customer satisfaction and follow-up customer complaints;
 - c) control of the production process, including handling when there is a discrepancy;
 - d) the implementation of QC;
 - e) control of monitoring and measuring equipment;

<p>c) Dari hasil kajian akan diputuskan apakah banding tersebut diterima atau ditolak oleh LSPro. Perubahan keputusan yang menyangkut sertifikasi dan perbaikannya segera dilakukan apabila banding diterima dan dikomunikasikan termasuk apabila banding ditolak.</p> <p>d) Apabila pihak yang mengajukan banding dapat menerima keputusan tersebut, maka masalah banding selesai. Apabila tidak tercapai kesepakatan, maka banding tersebut dapat diteruskan ke penyelesaian masalah perselisihan.</p> <p>e) Seluruh biaya pengujian dan evaluasi tambahan lainnya menjadi tanggungan dari pihak yang mengajukan banding.</p> <p>7) Langkah terhadap Perselisihan adalah sebagai berikut:</p> <p>a) LSPro IAPMO akan menempuh cara pertemuan musyawarah untuk memperoleh mufakat.</p> <p>b) Pertemuan membicarakan referensi-referensi yang ada seperti standar dan pedoman dari BSN, KAN dan Asosiasi maupun regulasi-regulasi yang datang dari departmen teknis. Melibatkan personil ahli teknis dan penyusun regulasi dalam mencapai mufakat.</p> <p>c) Apabila musyawarah tersebut tidak menghasilkan mufakat tentang penyelesaian perselisihan, maka LSPro IAPMO akan mengusulkan penyerahan penyelesaian perselisihan tersebut ke Badan Arbitrasi Nasional (BANI) untuk diselesaikan menurut prosedur BANI.</p> <p>d) Apabila cara Arbitrase pun belum dapat memecahkan perselisihan maka langkah terakhir adalah meminta pandangan penasehat hukum untuk diselesaikan melalui pengadilan sesuai peraturan perundangan yang berlaku.</p> <p>8) LSPro IAPMO mendokumentasikan rekaman yang terkait dengan banding, keluhan, dan perselisihan.</p> <p>6. KERAHASIAAN</p> <p>LSPro IAPMO bertanggung jawab untuk memastikan kerahasiaan informasi yang dikelola oleh seluruh personil LSPro termasuk personil subkontraktor terhadap semua informasi yang diperoleh dari klien.</p> <p>7. PUBLIKASI OLEH KLIEN</p> <p>1) Klien berhak untuk mempublikasikan produk yang telah disertifikasi meliputi:</p> <ol style="list-style-type: none"> menggunakan sertifikat yang valid; mencantumkan tanda kesesuaian sesuai perjanjian lisensi. 	<p>appeal is accepted or rejected by LSPro. Changes to decisions concerning certification and its corrections are made immediately if appeals are received and communicated including when appeals are rejected.</p> <p>d) if the appellant can accept the decision, then the matter of appeal is completed. If no agreement is reached, then the appeal may be forwarded to the settlement of the dispute.</p> <p>e) All additional testing and evaluation fees shall be borne by the appellant.</p> <p>7) Steps about Dispute are as follows:</p> <p>a) LSPro IAPMO will undertake a meeting to obtain consensus.</p> <p>b) Meetings discuss references such as standards and guidelines from BSN, KAN and the Association as well as regulations coming from technical departments. Involves technical and regulatory experts in reaching consensus.</p> <p>c) If the deliberations do not result in an agreement on dispute settlement, LSPro IAPMO will propose the submission of such dispute settlement to the National Arbitration Board (BANI) to be completed according to BANI procedure.</p> <p>d) If the arbitration has not been able to resolve the dispute then the final step is to seek the view of legal counsel to be resolved through the courts in accordance with applicable laws and regulations.</p> <p>8) LSPro IAPMO documents all records related to appeals, complaints and disputes.</p> <p>6. CONFIDENTIALITY</p> <p>LSPro IAPMO is responsible for ensuring the confidentiality of information maintained by all LSPro personnel including subcontractor personnel of all information obtained from clients.</p> <p>7. PUBLICATION BY CLIENT</p> <p>1) The Client has the right to publish the certified product including:</p> <ol style="list-style-type: none"> use a valid certificate; stating the mark of conformity under the license agreement. <p>2) Client shall keep the publication in order not to</p>

- 2) Klien harus menjaga publikasi agar tidak menimbulkan kebingungan antara produk yang bersertifikat dan yang tidak bersertifikat.

8. BIAYA SERTIFIKASI

- 1) Besarnya biaya sertifikasi dihitung berdasarkan biaya yang diperlukan untuk evaluasi lapangan, pengujian parameter yang diperlukan dan biaya administrasi.
- 2) Biaya-biaya dan cara pembayaran akan diinformasikan secara detail dalam surat penawaran.
- 3) Pembayaran dapat dilakukan setelah perjanjian sertifikasi ditandatangani.

9. TRANSFER SERTIFIKASI

- 1) Pengajuan pengalihan sertifikasi SNI dapat dilakukan oleh klien tersertifikasi dan/atau LSPro.
- 2) Pengajuan pengalihan Sertifikasi SNI hanya dapat diterima apabila lingkup yang dialihkan telah diakreditasi oleh KAN dan ditunjuk oleh regulator. Sertifikasi SNI yang dalam status dibekukan tidak boleh dialihkan.
- 3) Reviewer Engineer melakukan kajian terhadap permohonan pengalihan SNI meliputi aspek sebagai berikut:
 - a. validasi Sertifikat SNI termasuk edisi standar yang diacu, informasi terkait importer, perjanjian sub-lisensi, jenis produk yang disertifikasi;
 - b. alasan pengalihan;
 - c. lokasi yang diinginkan untuk pengalihan;
 - d. laporan audit terakhir;
 - e. informasi terkait pengaduan;
 - f. tahapan siklus sertifikasi saat ini; dan
 - g. perjanjian dengan regulator terkait dengan peredaran produk bertanda SNI
- 4) Berdasarkan hasil kajian tersebut, maka LSPro IAPMO akan menetapkan apakah klien tersebut akan diperlakukan sebagai klien baru atau diteruskan sesuai dengan status terakhirnya.

10. PENUTUP

- 1) LSPro IAPMO bertanggung jawab untuk memastikan pemenuhan persyaratan acuan dalam skema sertifikasi ini oleh organisasi Pemegang Sertifikat yang telah memperoleh Sertifikat Kesesuaian.
- 2) Organisasi Pemegang Sertifikat Kesesuaian bertanggung jawab memelihara pemenuhan persyaratan acuan yang ditetapkan dalam dokumen ini.

cause confusion between certified and non-certified products.

8. CERTIFICATION COSTS

- 1) Cost of certification is calculated based on the cost required for factory evaluation, testing the required parameters and administrative costs.
- 2) Fees and mode of payment will be informed in detail in the offer letter.
- 3) Payment may be made after the certification agreement is signed.

9. CERTIFICATION TRANSFER

- 1) Request transfer of SNI certification can be done by certified client and / or LSPro.
- 2) Submission of SNI certification transfer can only be accepted if the scope has been accredited by KAN and appointed by the regulator. SNI certification that is in suspension status shall not be transferred.
- 3) Reviewer Engineer review the application for the transfer of SNI includes the following aspects:
 - a. validation of SNI Certificate including referred edition standard, importer related information, sub-license agreement, type of certified product;
 - b. the reasons for the transfer;
 - c. the desired location for the transfer;
 - d. the latest audit report;
 - e. information related to the complaint;
 - f. the current cycle of certification stages; and
 - g. agreement with the regulator related to the circulation of products marked with SNI
- 4) Based on the review, LSPro IAPMO will determine whether the client will be treated as a new client or forwarded in accordance with its current status.

10. CLOSING

- 1) LSPro IAPMO is responsible for ensuring compliance with the terms of reference in this certification scheme by the Certificate Holder organization that has obtained the Certificate of Conformity.
- 2) The certified holder organization that has obtained the Conformity Certificate is responsible for maintaining the compliance with the reference requirements that specified in this document
